SKILLS

PROGRAMMING
Language:
- Python • TypeScript • JavaScript
- HTML/CSS • DSA

Database:
- MongoDB • MySQL • Postgres

Framework:
- ReactJs • NodeJs • ExpressJs
- Tailwind CSS • Prisma • Hono
- Cloudflare

Developer Tools:
- Visual Studio Code • Replit
- Postman • PyCharm

EXPERIENCE

SIYARAA EVOLUTIONS — Full Stack Developer
June 2023 - July 2023
Developed a web-based content management and resume builder application assigned by SIYARAA EVOLUTIONS, facilitating streamlined resume creation and content management.
Technologies: Node.js, React, MongoDB, HTML, CSS, Javascript, MUI, React-Query, Express.Js

Oasis Infobyte — Web Developer
May 2023 - June 2023
Developed a diverse range of web applications, including a blogging website and a weather app, showcasing proficiency in full-stack development.
Technologies: HTML, CSS, Javascript, Rapid API

PROJECTS

Tour Management Application
⌗ LINK — MERN APPLICATION
- TravelWorld is a JavaScript-based booking platform offering seamless tour booking experiences on desktop and mobile. Utilizing React.js, Node.js, MongoDB, and more, it features user login, tour listings with images and descriptions, a search bar, responsive design, and profile updates, ensuring easy and secure tour bookings from anywhere.
Technologies: Reactjs, Nodejs, MongoDB, Mongoose, JWT, Cookies, Context API, ReactStrap, React-Hooks, React router v6

Blogging Website
⌗ LINK — MERN APPLICATION
- Dynamic blogging website where users can seamlessly log in, upload, edit, and delete their blogs, along with posting images. The site showcases my proficiency in full-stack development, including authentication, CRUD operations, and image handling.
Technologies: Node.js, PostgresSQL, Hono, Cloudflare, TypeScript, Express.js, React.js, Prisma, VS Code.

SubTitle finder Application
⌗ LINK — Web APPLICATION
- SubTitle finder Application leveraging API integration to fetch subtitles from various media genres such as movies, dramas, web series, TV series, and K-dramas. This project demonstrates my skills in API usage, data retrieval, and parsing for dynamic content extraction, showcasing my proficiency in frontend development.
Technologies: HTML, CSS, JavaScript, Online API, Rapid API

ACHIEVEMENTS

- 5 Star Coder on HackerRank
- Certified Frontend Developer (ReactJS) by HackerRank
- Participated in Smart India Hackathon(SIH)
- GeeksforGeeks programmer 1200+ problems solved
